reading and textual interpretation are ordinary human activities performed inside as well as outside academia but precisely how they function as unique sources of knowledge is not well understood in this book rené van woudenberg explores the nature of reading and how it is distinct from perception and attending to testimony which are two widely acknowledged knowledge sources after distinguishing seven accounts of interpretation van woudenberg discusses the question of whether all reading inevitably involves interpretation and shows that although reading and interpretation often go together they are distinct activities he goes on to argue that both reading and interpretation can be paths to realistically conceived truth and explains the conditions under which we are justified in believing that they do indeed lead us to the truth along the way he offers clear and novel analyses of reading meaning interpretation and interpretative knowledge

the paradoxical logic of transparency and mediation transparency is the metaphor of our time whether in government or corporate governance finance technology health or the media it is ubiquitous today and there is hardly a current debate that does not call for more transparency but what does this word actually stand for and what are the consequences for the life of individuals can knowledge from the arts and its play of visibility and invisibility tell us something about the paradoxical logics of transparency and mediation this obscure thing called transparency gathers contributions by international experts who critically assess the promises and perils of transparency today

jesus parables they are widely known or at least often referenced but does that mean they are well understood having slipped into the lingua franca of our day we could be missing some of what he was communicating if familiarity breeds contempt perhaps our sense that we know these stories insulates us from what jesus was saying about life with god if jesus intended his parables to be much more than helpful illustrations or memorable word pictures we might need to hear them in a fresh way we could be overlooking what is essential if we read his parables simply as clever stories like a chef who seasons the meal in such a way that the distinctive flavors of each element is enhanced brian invites the reader into an invigorating and fresh taste of what jesus says in his parables reading each parable attentive to jesus own words and the context in which these stories are found you ll hear the voice of the savior in renewed ways no longer will you think of his parables as clever stories but you ll find them to be life giving words from jesus
