critical management studies or cms describes a diverse group of work that has
adopted a critical or questioning approach to the traditional concerns of
management studies and the growing interest in cms has produced a vibrant and
exciting body of research christopher grey and hugh willmott leading authorities in
this area introduce seventeen readings which reflect these developments and
show cms importance as an assessment of cms the reader will be of interest to
academics researchers and students of management studies as an introduction to
cms it will prove invaluable to stu

volume one of the handbooks of management accounting research sets the
context for both handbooks with three chapters outlining the historical
development of management accounting as a discipline and as a practice in three
broad geographic settings the bulk of the first volume then draws together a

series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives the volume includes a chapter which looks at work informed by psychology as a base discipline the volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting special pricing available if purchased as a set with volume 2 documents the scholarly management accounting literature publishing both in print and online through science direct international in scope

designed as a comprehensive introduction to the key phases of research projects this textbook responds to the lack of guides tailored specifically to management studies it combines theory and practice to offer a completely rounded introduction provides students executives and managers with vital resources to lead their organizations to higher levels of performance

first published in 1998 readers of this volume will get a good overview of research into managerial work they will learn about what the researchers have studied what methods have been used and the criticisms of the limitations of individual methods the different concepts that have been developed what has been learnt about managerial work and behaviour from these studies over the years how this field of study has developed the main criticisms made of the research suggestions for future research and future developments studies of managerial work have a long history the first major work was by sune carlson in sweden in 1951 and studies have continued to the present day mainly in the usa and the uk the early studies sought to find out what managers actually did as distinct from the generalized theories of the nature of managerial work they were part of the new interest of social scientists in finding out what actually happened in organizations in opposition to the general theories that prevailed then articles cannot give a complete picture of the field studies that have been such a notable feature of this branch of research because carlson s study like many of the later ones was

published only as a book however they provide all the information that students and researchers need to understand the aim methods and approaches used by researchers so far and a good guide to the varied possibilities for developing this area of study

the journal of global business and management research gbmr is a quarterly peer reviewed journal which strives to comply with highest research standards and scientific research practice journals qualities being international and inter disciplinary in scope gbmr seeks to provide a platform for debate among diverse academic and practitioner communities who address a broad area of business and management issues across the globe it is currently indexed in a number of prestigious databases including gale and ebSCO

the scholarship of management teaching and learning has established itself as a field in its own right and this benchmark handbook is the first to provide an account of the discipline original chapters from leading international academics identify the key issues and map out where the discipline is going each chapter provides a comprehensive and critical overview of the given topic area highlights current debates and reviews the emerging research agenda chapters embrace the study of organizations as a whole the concepts of individual and collective learning the delivery of formal management education and the facilitation of management development through consideration of these themes the handbook analyzes promotes and critiques the contribution of management learning education and development to management understanding it will be an invaluable point of reference for all students and researchers interested in broadening their understanding of this exciting and dynamic new field

study resulting from a questionnaire survey of managerial social status in india outlines research methodology used and examines factors such as mother tongue language father s social class and position in the occupational structure religion educational level etc references and statistical tables

gives you an enterprise wide view of technology to help you manage your business as a system optimize investments in technology achieve efficient business integration and monitor and measure tm effectiveness detailed case studies illustrate the tm efforts of such organizations as motorola and digital equipment
